

Recommended Web Browsers

Use the newest version of one the following web browsers to maximize your CareerForceMN.com experience:

- Google Chrome
- Apple Safari
- Mozilla Firefox
- Microsoft Edge

Why not Internet Explorer?

Microsoft recommends using Edge, their new browser, instead of Internet Explorer because *“only the most current version Internet Explorer available for a supported operating system will receive technical supports and security updates. Internet Explorer 11 is the last version of Internet Explorer.”*

Previous versions of Internet Explorer are no longer supported by Microsoft. To keep up with new web technology development and to provide CareerForceMN.com users with a safe and secure platform experience, we did not prioritize development to support this browser.

A note about assistive technology

Users of assistive technologies should use a browser that is compatible with both CareerForceMN.com and their assistive technology. Please refer to any browser recommendations or guidelines offered by your assistive technology.

Use Internet Explorer, Edge and Firefox as your browser.

Chrome or Safari will create errors
